OUTDOOR LIGHTING SOLUTIONS

2025-2026 CATALOGUE

Ripon Lighting

Trade Catalogue 2025

Brief Introduction

As we continue to grow and build on the success of our recent relaunch, the team at Ripon Lighting is proud to present our most exciting trade catalogue to date. 2025 marks a pivotal year for us, and we've been working harder than ever to expand our range, enhance product quality, and strengthen our service to ensure our trade partners have everything they need to thrive.

With outdoor living more popular than ever, we're delighted to unveil a refreshed and expanded range of solar and low-voltage garden lighting solutions designed to transform any space, beautifully, efficiently, and affordably. From striking festoon lights to elegant path markers and atmospheric lanterns, every product has been thoughtfully developed with both functionality and design in mind.

This year, we've introduced over 100 new products across our core categories, including our best ever selection of solar lanterns, festoon lighting, and premium-grade lighting with replaceable components, perfect for customers looking for sustainable and long-lasting outdoor lighting options. We've also refined our trade pricing to ensure even better value and stronger retail appeal across the board.

Behind the scenes, we've strengthened our logistics, streamlined our ordering processes, and grown our support team. Whether you're a long standing partner or new to Ripon Lighting, you can expect first-class service, and a team genuinely committed to your success.

On behalf of the entire Ripon Lighting team, thank you for your continued support. We are excited to work closely with you in 2025 and beyond and look forward to helping your business glow.

Best regards,

David Wood

Founder & Managing Director
Ripon Lighting

Solar Lighting

Specialising in festoon and solar wall lighting, our range combines energy efficiency with style and functionality. Featuring motion sensor options and reliable performance, these lights are perfect for creating inviting outdoor spaces without the need for wiring or mains power, ideal for both domestic and commercial projects.

Festoon Lighting

Low Voltage LEDs Mains Powered

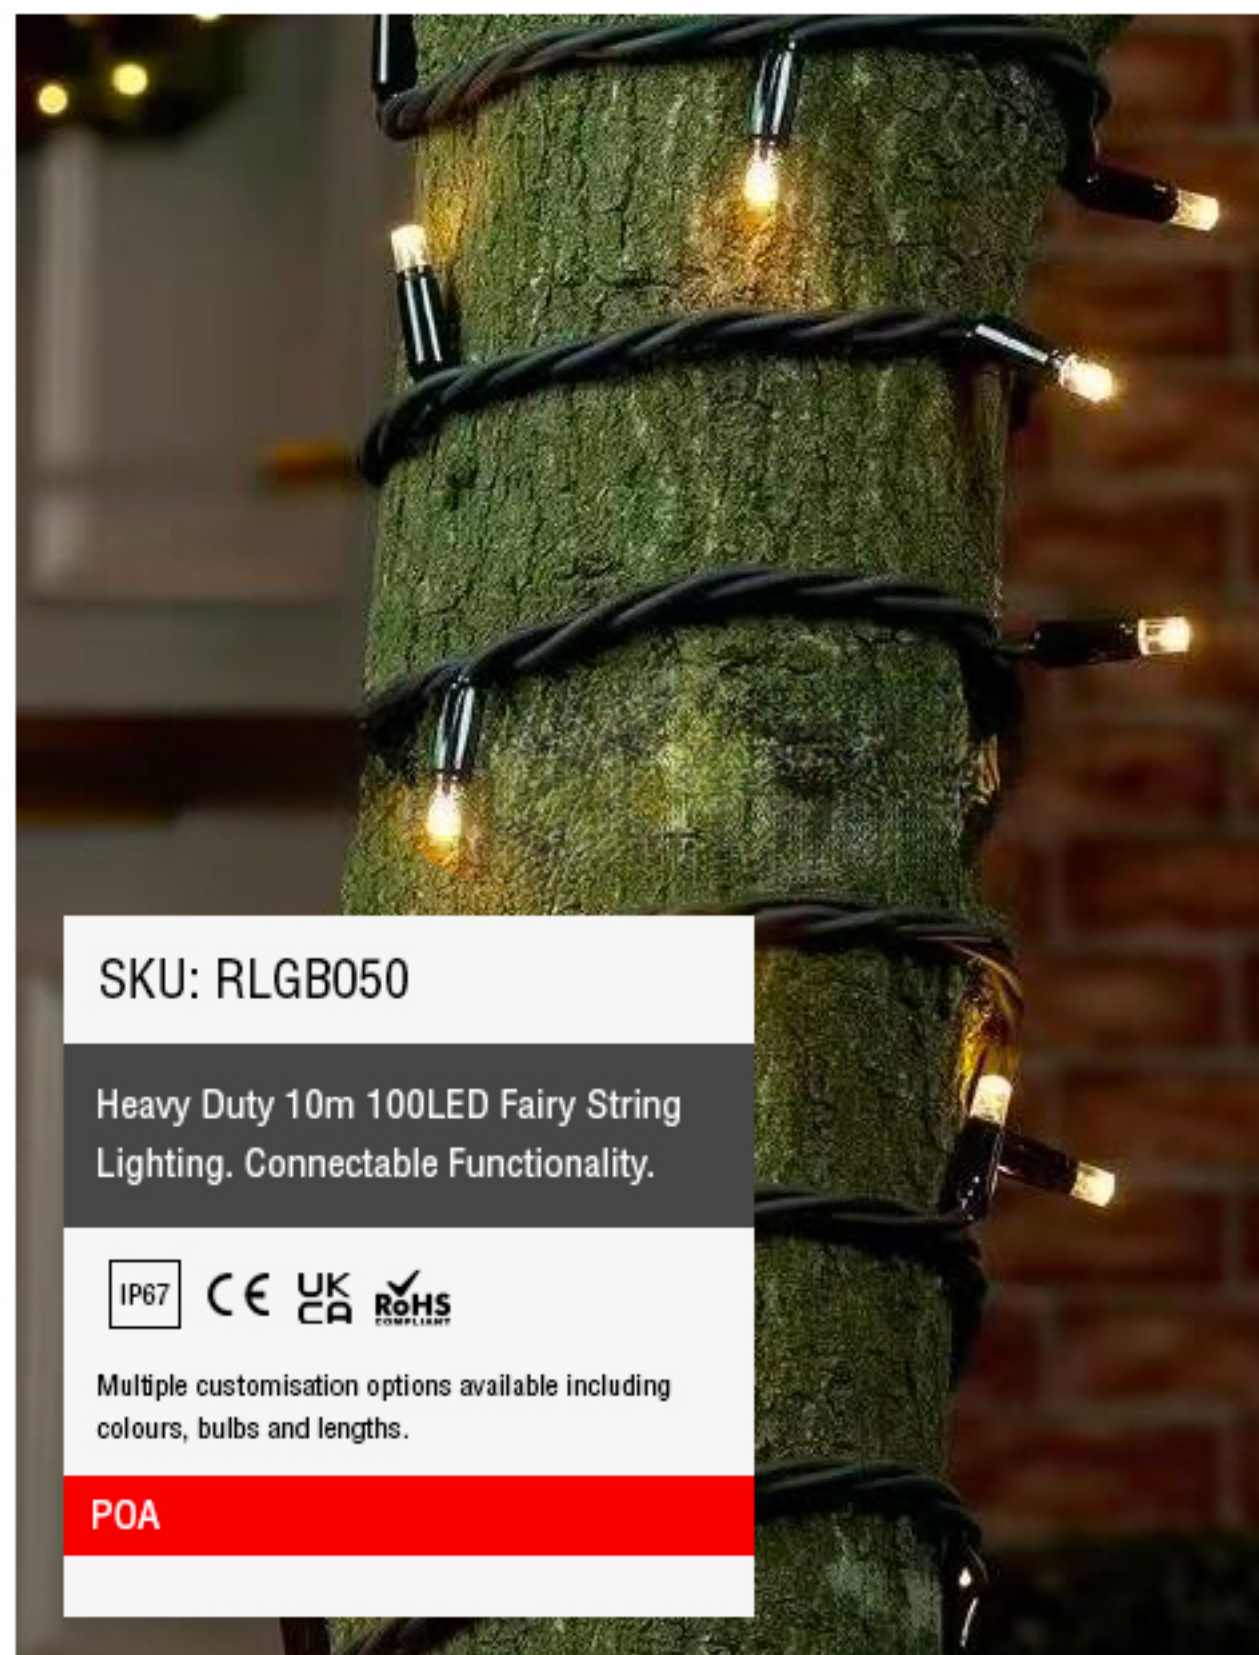

Our premium festoon lighting range is available in multiple lengths and bulb types, with a variety of colour styles to suit any setting. Our Festoon Lighting Sets are connectable up to 80 metres plus, making them ideal for large installations. We also offer custom length options and bulbs spacing to suit your project needs, whether for domestic, commercial or event use.

Fairy Lights

Low Voltage LEDs Mains Powered

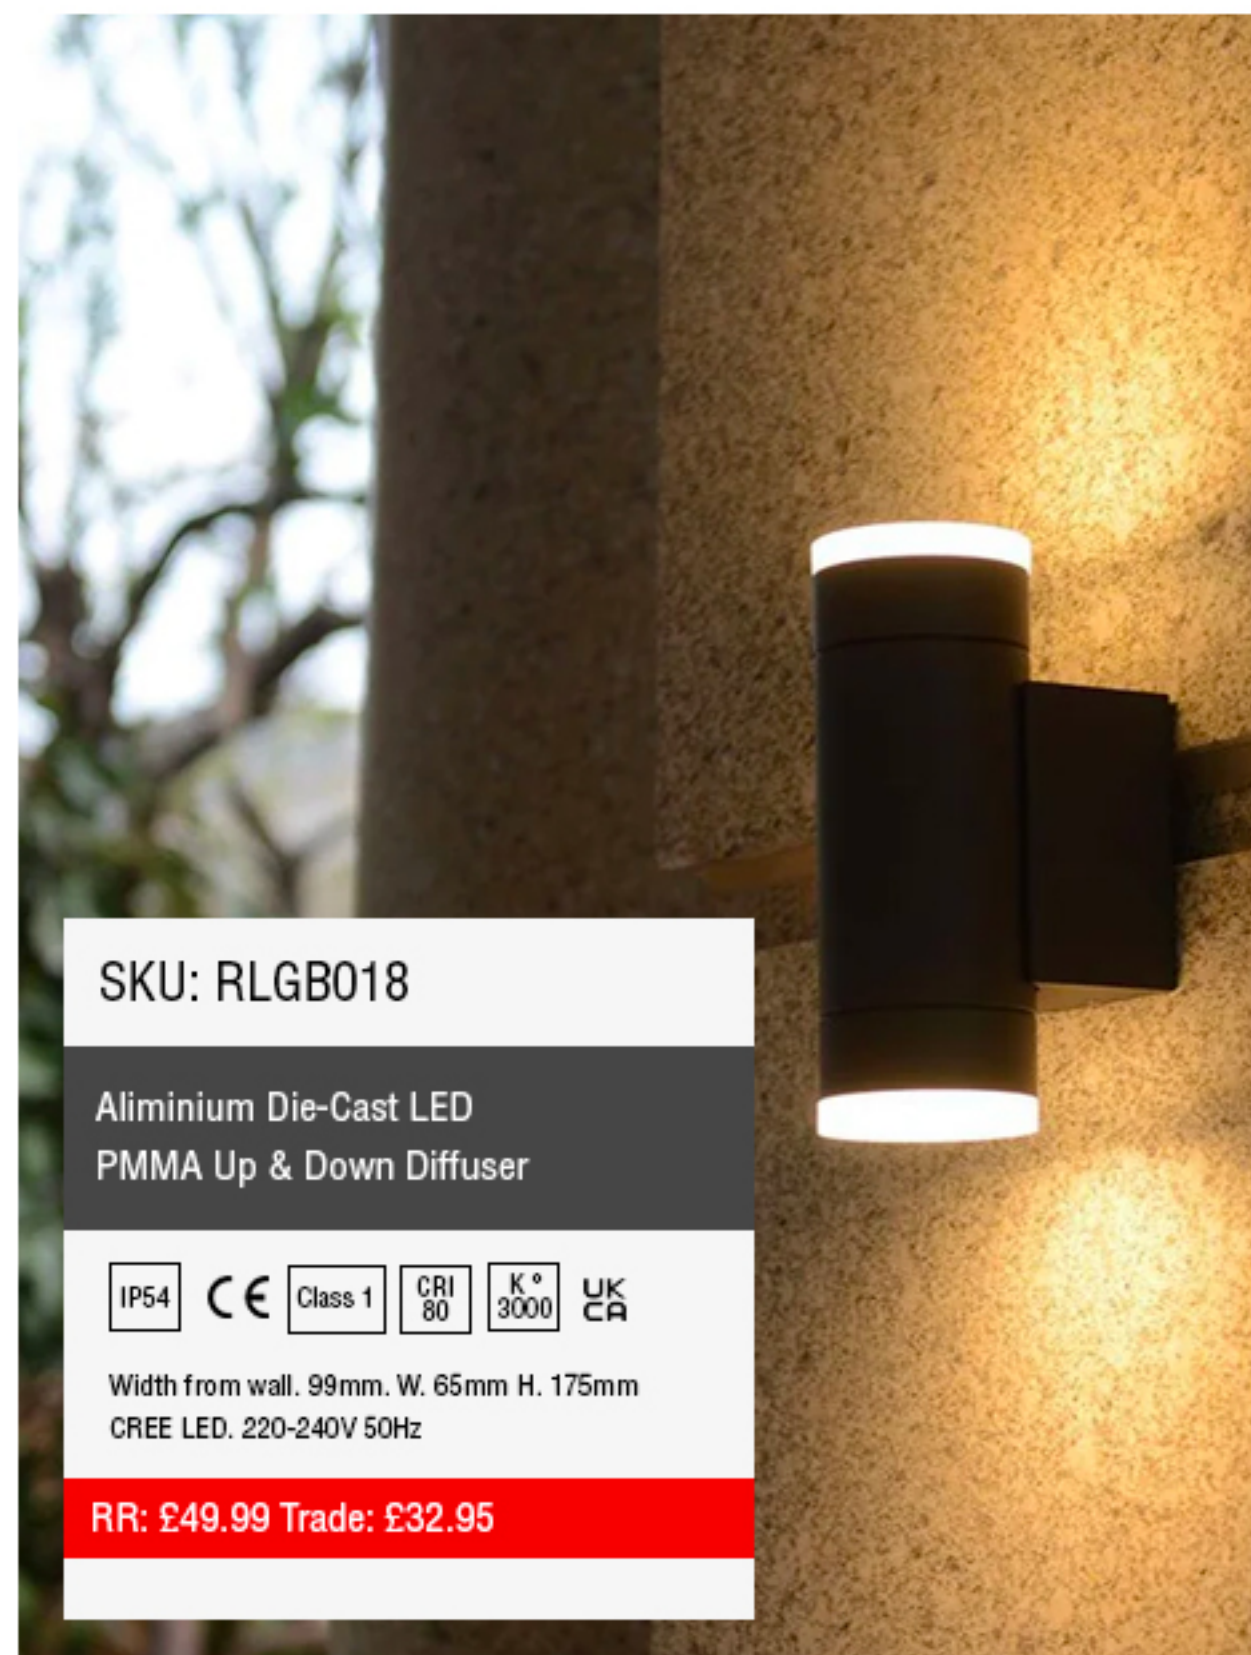

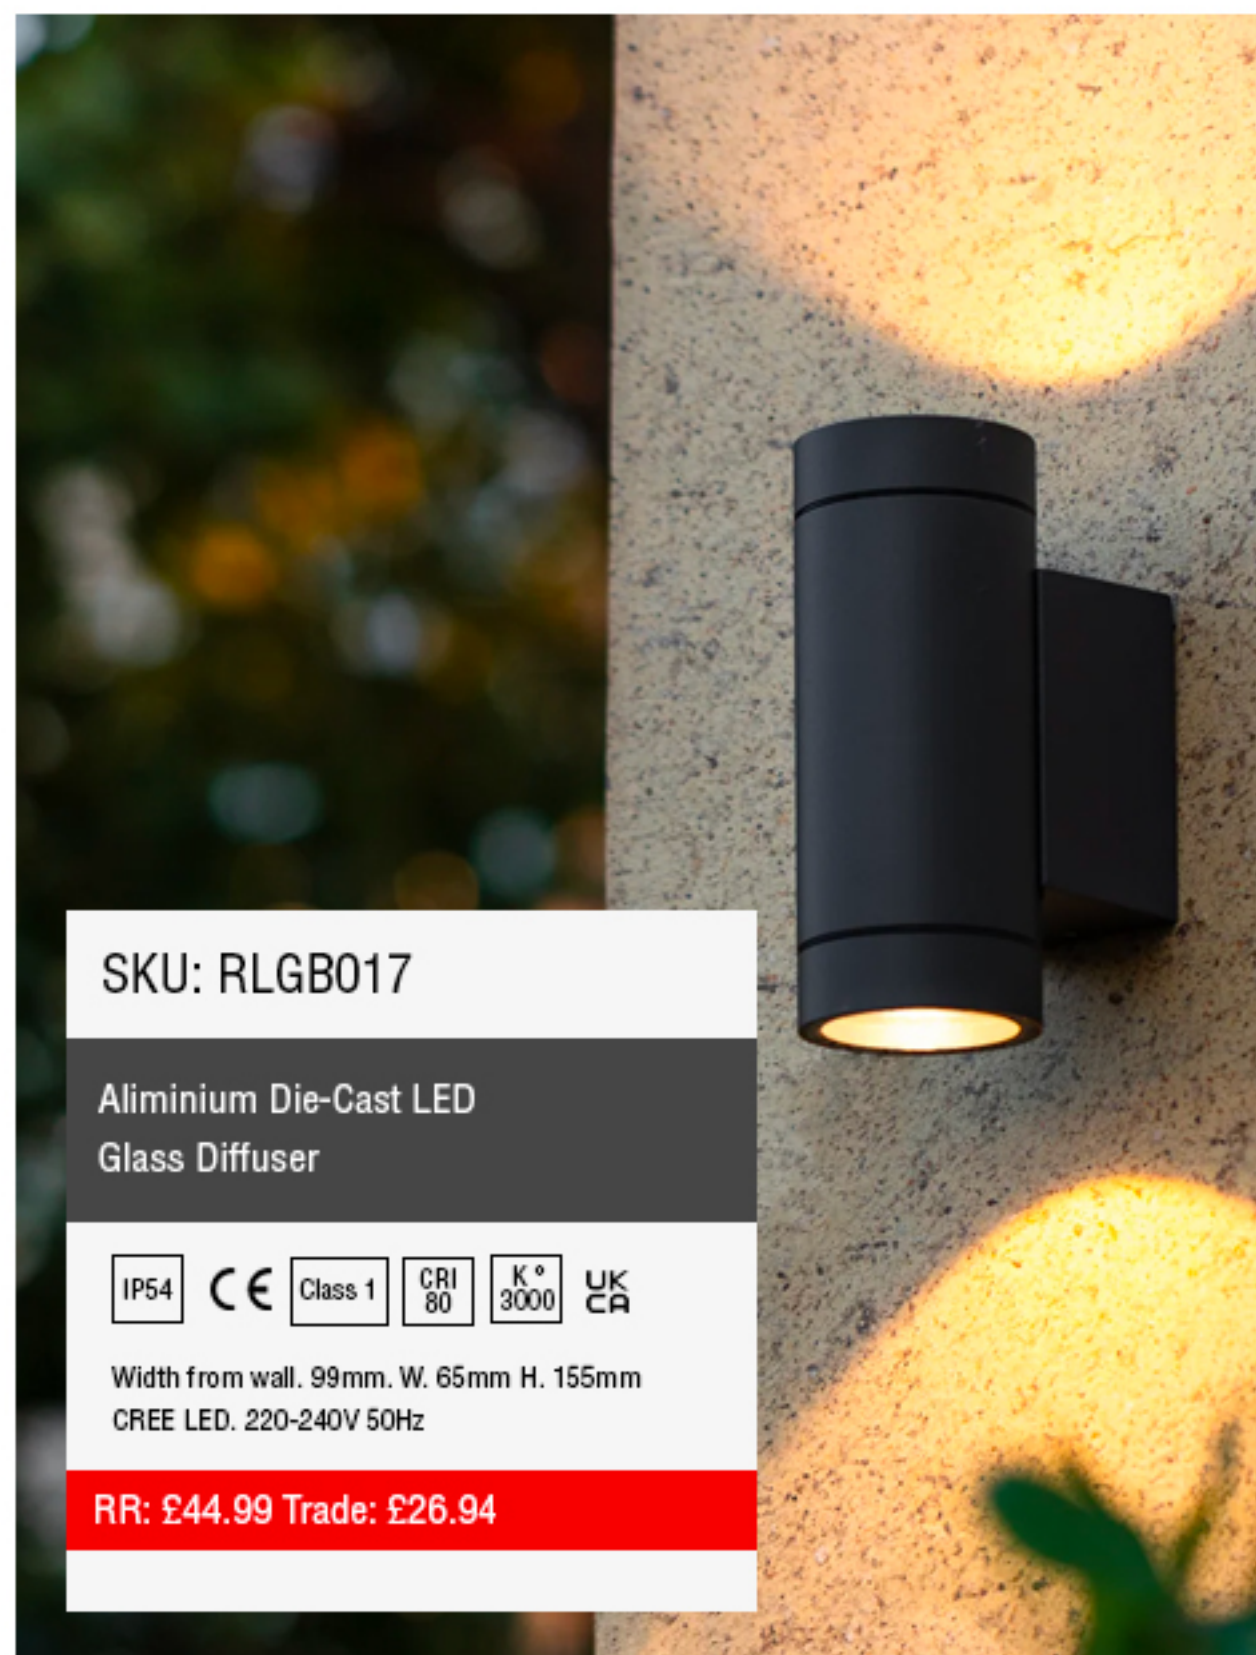

Our low-voltage fairy lights are built for durability and performance, making them ideal for commercial use. Crafted from premium materials, they are fully connectable and available in a range of styles, lengths and colours. Designed to withstand year-round outdoor conditions, they offer a reliable, professional-grade lighting solution for events, venues and large-scale displays.

Outdoor Wall Lighting

Low Voltage Mains Powered Wall Lighting

Our premium outdoor wall lights are crafted from durable die-cast materials and designed for low-voltage systems. Built to withstand the elements, they offer a sleek and reliable solution for lighting entrances, pathways and outdoor living areas. With a focus on quality and performance, these fittings provide both style and longevity for any exterior project.

Outdoor Wall Lighting *continued*

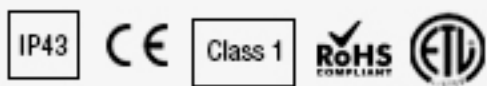

Low Voltage Mains Powered Wall Lighting

In addition to the products featured in this catalogue, we offer a wider range of lighting solutions off-catalogue. From specialist fittings to custom options, our extended selection covers a variety of styles and specifications. If you're looking for something specific please get in touch! we're here to help.
